 Remote / International

Professional Summary

Frontend Developer with professional experience in building, maintaining, and optimizing production web and mobile applications using **React**, **React Native**, **JavaScript**, and **Redux**. Proven ability to work on real-world products with active users, contributing to feature development, performance optimization, and long-term code maintainability. Experienced in collaborating within remote and distributed teams using modern development workflows. Strong mid-level engineer with clear progression toward senior-level ownership, architecture awareness, and system-level thinking.

Core Technical Skills

- **Programming Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frontend Frameworks:** React, React Native
- **State Management:** Redux
- **UI & Styling:** Bootstrap, Responsive Design
- **API Integration:** REST APIs, JSON
- **Version Control:** Git
- **Development Practices:** Component-based architecture, code refactoring, performance optimization, bug fixing
- **Platforms:** Web Applications, Mobile Applications (React Native)

Professional Experience

Frontend Developer

BazamBazi — *2023 to Present*

<https://bazambazi.games>

- Developed and maintained frontend features for the **BazamBazi website, admin panel, and mobile application** using React, React Native, and Redux.
 - Integrated REST APIs and managed application state to ensure predictable data flow and stable user experience.
 - Improved application performance through component optimization and reduction of unnecessary re-renders.
 - Collaborated with cross-functional team members to translate product requirements into scalable frontend solutions.
 - Refactored existing code to enhance readability, maintainability, and long-term scalability.
-

Projects

BazamBazi Mobile Application

React Native | Redux | REST API

- Contributed to the development and maintenance of a production mobile application with real users.
 - Implemented reusable UI components and managed complex application state using Redux.
 - Worked on bug fixes, performance improvements, and version updates to ensure application stability.
 - Collaborated with backend and product teams to deliver new features aligned with business requirements.
-

BazamBazi Admin Panel

React | JavaScript | REST API

- Developed frontend features for an internal admin panel used to manage application data and operations.

- Integrated REST APIs and handled asynchronous data flows within the React application.
 - Improved usability and maintainability by refactoring components and standardizing UI patterns.
-

BazamBazi Website

React | HTML | CSS | Bootstrap

- Built and maintained responsive user-facing web pages using React and Bootstrap.
 - Ensured cross-browser compatibility and consistent UI behavior across different screen sizes.
 - Applied clean component structure to support future scalability and feature expansion.
-

Education

Master of Computer Software Engineering

Sadra University — 2016 – 2019

Bachelor of Computer Software Engineering

Ershad Damavand University — 2014 – 2016

Languages

- **Persian:** Native
 - **English:** Professional Working Proficiency
 - **Turkish:** Basic
-

Additional Qualifications

- Experience working with **production codebases** and live user environments
- Strong focus on **clean code**, **performance optimization**, and **scalable frontend architecture**
- Comfortable in **remote-first** and **asynchronous** team environments
